

# Southern District Health Board - Otago Constituency

## Electing 4 Board Members

---

### **Malcolm MACPHERSON**

My principal place of residence is in the Southern District Health Board - Otago Constituency area.

Director of HealthCentral, a new medical practice in Alexandra. Board member, Central Lakes Trust. Past member of the Council of Otago Polytechnic.

Academic mentor and facilitator for bachelor's and master's degrees at Otago Polytechnic. Past mayor, Central Otago District. Past member and committee chair, SDHB. Doctorate in earth science, ONZM. CV available on request. More information, cv and Q&A on my Facebook page. There's a lot that needs fixing in the Southern District. The commissioners have done a sterling job, but is five years without community representation taking its toll? As a practice owner, married to a GP, with previous experience around the SDHB table, and with research interests in governance - especially failure to govern - I can take broad experience and deep knowledge to the SDHB table. The new board will need to challenge the status quo, and advocate to fill the obvious gaps. I can help to do that.

#### *Conflict of Interest Statement*

I have the following current conflicts of interest with the Southern District Health Board (SDHB).

(a) I am a director and part-owner of Health Central Ltd, an Alexandra General Practice, which is funded in part by the SDHB and the Primary Health Organisation WellSouth

(b) My wife, Dr Susan Elizabeth Macpherson, is a General Practitioner in Alexandra

(c) My wife Dr Susan Elizabeth Macpherson is employed by ACC. To the best of my knowledge and belief, I have no other conflicts of interest with the SDHB at the date of my notice of consent to being nominated as a candidate for membership of the board of the SDHB.

I do not believe that any conflicts of interest are likely to arise in future, other than the continuation of the conflicts of interest stated above.
