

Southern District Health Board - Southland Constituency

Electing 3 Board Members

Terry KING

Patient Advocate

My principal place of residence is in the Southern District Health Board - Southland Constituency area.

My mission is to ensure patient services and resourcing for Southland. As a patient advocate, I support the reinstatement of the Lumsden

Maternity Centre, and as a cancer survivor strongly believe in a national cancer agency as promoted by Winton's Blair Vining and others. Cancer, cardio vascular disease, mental health, diabetes, dementia are all major challenges.

During my term as National President of Grey Power NZ, I led parliamentary lobbying visits to the Minister of Health and Pharmac and met Opposition Health spokespersons while advocating on behalf of senior citizens. With a background in financial services, community service includes many years as a Justice of the Peace, nine years an Invercargill City Councillor including chairperson of major committees.

Based on person experiences I bring a practical approach to governance. As a strong people's advocate with commitment to ensure quality health services for Southland, I would appreciate your support.

Conflict of Interest Statement

To the best of my knowledge and belief, I have no conflicts of interest with the Southern District Health Board (SDHB) at the date of my notice of consent to being nominated as a candidate for membership of the board of the SDHB, and I do not believe that any such conflicts of interest are likely to arise in the future.
