## How to Select and Enter Measles Vaccination?

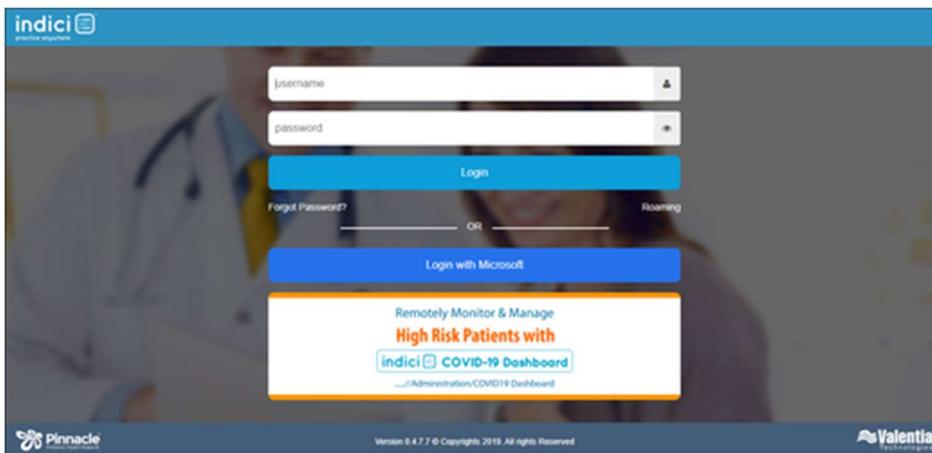

Providers will be able to select and enter the following measles vaccination on indici system for patients who are 13 years or older. These MMR vaccines can be added with the following indicators

- MMR: 6
- MMR: Stn

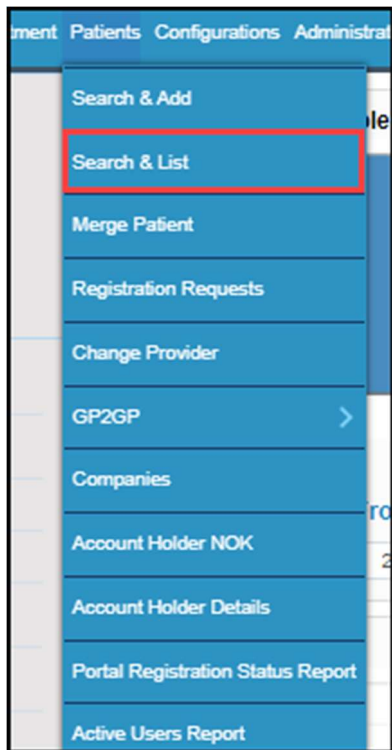

Below steps illustrate a complete follow of how measles vaccines will be selected and added.

### 1.1 Login

1. On indici *Login* screen, enter your **Username** and **Password** in the respective fields and click **Login** button.

2. From **Patients** menu click on **Search & List** option.

## 1.2 Patient Search

- Click on a patient's name to open *Consult Detail* screen.

The image shows the 'Search Patient' screen. It has search filters for Patient Name, DOB, and Street. Below the filters is a table of patient records. The first row is highlighted with a red rectangle. The table columns are: Name, DOB, Age, Gender, NH, Chart No, Address, Phone, Mobile, Provider, Fund, Enrol, Reg, Pay Grp, GMS Balance, and Actions.

Name	DOB	Age	Gender	NH	Chart No	Address	Phone	Mobile	Provider	Fund	Enrol	Reg	Pay Grp	GMS Balance	Actions
John W. Smith	1950-01-01	67 Yrs	Male	1	100000000	100000000	100000000	100000000	100000000	100000000	100000000	100000000	100000000	100000000	100000000
John W. Smith	1950-01-01	67 Yrs	Male	1	100000000	100000000	100000000	100000000	100000000	100000000	100000000	100000000	100000000	100000000	100000000
John W. Smith	1950-01-01	67 Yrs	Male	1	100000000	100000000	100000000	100000000	100000000	100000000	100000000	100000000	100000000	100000000	100000000

#### 1.4 Select appropriate indications

8. To add MMR vaccine with MMR: 6 indication select **Booster or Extra dose** option from **Indication** lookup.

The screenshot shows the 'Vaccine Administration' form. The 'Indication' dropdown is highlighted with a red box and contains the text 'Booster or Extra dose'. Other visible fields include 'Vaccine' (MMR), 'Dose #', 'Description' (Measles, mumps and rubella virus vaccine), 'Due Date' (22/07/2020), 'Scheduled' (22/07/2020), 'Age' (03), 'Code', 'Recall Group', 'Date', 'Reason', 'Outcome' (Given), 'Administration Date' (22/07/2020), 'Vaccinator', 'Provider', 'Brand' (Prophyl), 'Batch Number' (110000), 'Expiry Date' (01/01/2020), 'Route' (Subcutaneous), 'Administration Site' (--Select One--), 'Needle Size' (--Select One--), 'Diluent' (Do not show on portal), 'Diluent Batch Number' (110000), 'Diluent Exp. Date' (01/01/2020), 'Claim funding from MHL' (checked), 'Serology' (--Select One--), and 'Schedule Notes'.

9. To add MMR vaccine with MMR: Stn indication select **Standard** option from **Indication** lookup.

The screenshot shows the 'Vaccine Administration' form. The 'Indication' dropdown is highlighted with a red box and contains the text 'Standard'. Other visible fields include 'Vaccine' (MMR), 'Dose #', 'Description' (Measles, mumps and rubella virus vaccine), 'Due Date' (22/07/2020), 'Scheduled' (22/07/2020), 'Age' (03), 'Code', 'Recall Group', 'Date', 'Reason', 'Outcome' (Given), 'Administration Date' (22/07/2020), 'Vaccinator', 'Provider', 'Brand' (Prophyl), 'Batch Number' (110000), 'Expiry Date' (01/01/2020), 'Route' (Subcutaneous), 'Administration Site' (--Select One--), 'Needle Size' (--Select One--), 'Diluent' (Do not show on portal), 'Diluent Batch Number' (110000), 'Diluent Exp. Date' (01/01/2020), 'Claim funding from MHL' (checked), 'Serology' (--Select One--), and 'Schedule Notes'.

10. Once done click **Save & Close** button, hence immunisation will be added successfully.
11. Also record will appear in the list as shown in below image:
