

Administering MMR Immunisations

In response to the ongoing Measles outbreak in New Zealand, the Ministry of Health provided instructions for Practice Management Systems to correctly record MMR vaccines in the NIR for different age groups. To support this Intrahealth released an MMR care plan package in 2019, that is still available for download from the Intrahealth Solutions centre.

This document focuses on administering these MMR immunisations. The steps below describe the process of adding the care plan and completing the MMR immunisation(s) for individuals aged 13 years and older with the applicable Indication code of Primary Course (5), Booster (6) or Standard (Stn).

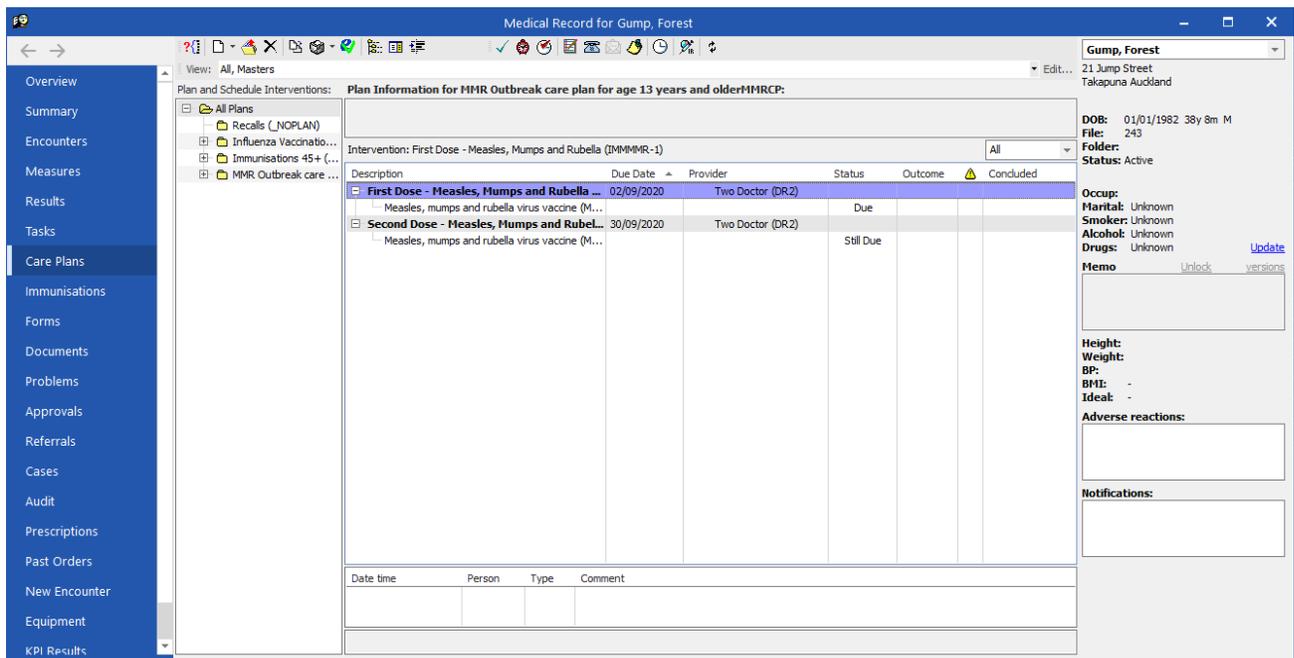

MMR Care Plan

Add the Care Plan highlighted below to the Patient record. If this care plan is not available in your system, it can be downloaded from the Intrahealth Solutions centre. If you require assistance in obtaining the care plan, please contact Support.

Completing an Immunisation

1. Go to **Clinical \ Care Plans** on the menu bar and select the required patient.
2. Highlight the required intervention of the MMRCP care plan and click , or right-click and select **Complete**. The **Intervention Completion** window appears.

The screenshot shows the 'Medical Record for Gump, Forest' interface. The left sidebar contains a navigation menu with 'Care Plans' selected. The main area displays 'Plan Information for MMR Outbreak care plan for age 13 years and olderMMRCP:'. Under 'Intervention: First Dose - Measles, Mumps and Rubella (IMMMR-1)', there is a table with two rows:

Description	Due Date	Provider	Status	Outcome	Concluded
First Dose - Measles, Mumps and Rubella ... Measles, mumps and rubella virus vaccine (M...	02/09/2020	Two Doctor (DR2)	Due		
Second Dose - Measles, Mumps and Rubel... Measles, mumps and rubella virus vaccine (M...	30/09/2020	Two Doctor (DR2)	Still Due		

Below the table is a section for 'Date time', 'Person', 'Type', and 'Comment'. On the right side, patient details for 'Gump, Forest' are visible, including DOB (01/01/1982), File (243), and various medical history fields like 'Occup: Unknown', 'Height: Unknown', etc.

3. Complete the required fields.
