Position Title:	Patient Flow/Operations Manager – Southland
Service & Directorate:	Chief Operating Officer
Location:	Dunedin
Reports to:	Deputy COO / General Manager Southland Hospital
DHB Delegation Level:	Tier 4
Date:	November 2021

Our Vision

Better Health, Better Lives, Whānau Ora

We work in partnership with people and communities to achieve their optimum health and wellbeing
 We seek excellence through a culture of learning, enquiry, service and caring

Our Shared Values and Behaviours

Kind <i>Manaakitanga</i>	Open <i>Pono</i>	Positive <i>Whaiwhakaaro</i>	Community <i>Whanaungatanga</i>
Looking after our people: We respect and support each other. Our hospitality and kindness foster better care.	Being sincere: We listen, hear and communicate openly and honestly. We treat people how they would like to be treated.	Best action: We are thoughtful, bring a positive attitude and are always looking to do things better.	As family: We are genuine, nurture and maintain relationships to promote and build on all the strengths in our community.

Our statutory purpose

To improve, promote and protect the health of our population
 Promote the integration of health services across primary and secondary care services
 Seek the optimum arrangement for the most effective and efficient delivery of health services
 Promote effective care or support for those in need of personal health or disability support services
 Promote the inclusion and participation in society and the independence of people with disabilities
 Reduce health disparities by improving health outcomes for Māori and other population groups
 Foster community participation in health improvement and in planning for the provision of and changes to the provision of services
 Uphold the ethical and quality standards expected of use and to exhibit a sense of social and environmental responsibility

PURPOSE OF ROLE

The Patient Flow / Operations Manager is responsible for ensuring effective patient flow is occurring within the designated hospital on a daily basis, and oversight across Gore and Lakes District Hospital. They will be required to work with the Senior Leadership as well as relevant Tier 4 positions to ensure that issues are identified wherever possible in advance and resolved, ensuring a safe and comprehensive delivery of contemporary high quality health and disability services. To lead initiatives in Southland Hospital to improve patient flow. In addition to this there is an expectation that the Patient Flow / Operations Manager Southland will build a strong reciprocal relationship with the Patient Flow / Operations Manager Dunedin to ensure that a district wide picture is understood and each site supports each other to optimise patient flow and efficient effective functioning of hospital resources.

Area/Role specific requirements:

- The Patient Flow / Operations Manager will be responsible for coordinating activities which ensure effective functioning of the hospital on a day to day basis. This will include coordinating operations planning meetings, and ensuring resources are directed in a timely manner to optimise safe staffing. This will require relationship building with the Tier 3 and 4 leaders who have operational resourcing responsibilities.
- The Patient Flow / Operations Manager, in partnership with Clinical and Managerial Leadership, will research, initiate and lead initiatives for continuous improvement to patient flow through the hospital.
- The Patient Flow / Operations Manager will need to place decision making processes as close to where care happens to empower our people to deliver our services as one population. You will also provide strategic, operational, technical and managerial support to the Chief Operating Officer team. Another major aspect of this role will be to comprehensively manage within allocated resources of time, people and money, by promoting efficiency, productivity and patient safety.
- Working in partnership with Directors of Nursing and Midwifery, the Patient Flow / Operations Manager role will have a key focus on the safe and effective running of nursing units on a day to day basis, but with a multi disciplinary lens over advice and decisions. Professional guidance and leadership of changes to nursing units will come from the respective Chief clinical leadership roles. Issues pertaining to service development and direction will come from the relevant service based General Manager/Service Managers.
- The Patient Flow / Operations Manager must understand the workings of Trendcare / CCDM and will have responsibility of working with the CCDM Coordinator to ensure that all the inputs to support the appropriate functioning of CCDM are robust. This includes monthly reporting and annual FTE calculations. The Variance Response Management functions are under the responsibility of the Patient Flow / Operations Manager.

Competencies

The following competencies apply to this position. The employee will be assessed against these as part of their annual performance and development review.

Organisational Competencies

Customer Focus	Is dedicated to meeting the expectations and requirements of internal and external customers; gets first hand customer information and uses it for improvements in products and services; acts with customers in mind; establishes and maintains effective relationships with customers and gains their trust and respect.
Integrity and Trust	Is widely trusted; is seen as a direct, truthful individual; can present the unvarnished truth in an appropriate and helpful manner; keeps confidences; admits mistakes; doesn't misrepresent him/herself for personal gain.
Drive For Results	Can be counted on to exceed goals successfully; Is constantly and consistently one of the top performers; very bottom line oriented; steadfastly pushes self and others for results.

Management Competencies

Decision Quality	Makes good decisions (without considering how much time it takes) based upon a mixture of analysis, wisdom, experience, and judgement; most of his/her solutions and suggestions turn out to be correct and accurate when judged over time; sought out by other for advice and solutions.
Process Management	Good at figuring out the processes necessary to get things done; knows how to organise people and activities; understands how to separate and combine tasks into efficient work flow; knows

	what tot measure and how to measure it; can see opportunities for synergy and integration where others can't; can simplify complex processes; gets more out of fewer resources.
Organisational Agility	Knowledgeable about how organisations work; knows how to get things done both through formal channels and the informal network; understand the origin and reasoning behind key policies, practices, and procedures; understands the cultures of organisations.
Building Effective Teams	Blends people into teams when needed; creates strong morale and spirit in his/her team; shares wins and successes; fosters open dialogue; lets people finish and be responsible for their work; defines success in terms of the whole team; creates a feeling of belonging in the team.
Problem Solving	Uses rigorous logic and methods to solve difficult problems with effective solutions; probes all fruitful sources for answers; can see hidden problems; is excellent at honest analysis; looks beyond the obvious and doesn't stop at the first answers.
Managing and Measuring Work	Clearly assigns responsibility for tasks and decisions; sets clear objectives and measures; monitors process, progress, and results; designs feedback loops into work.
